Fiber Cement & Engineered Wood Products

(All warranties in this category are extendable)

- One-Coat Cement Coat: 15 Plus Year Coating Warranty
- Two-Coat Cement Coat Plus: 25-Year Coating Warranty
- Three-Coat Semi-Transparent: 12-Year Coating Warranty
(Fiber Cement & MiraTEC only)

Factory Priming

- One Coat White or Tinted Prime
- One Coat Low Luster / Low Sheen Prime

Specialty Products

- Tannic Acid Blocker
- Insecticide

PLEASE NOTE

- Some colors may require two or more coats of finish for complete coverage!
- We strongly suggest using a tannic acid blocker for white and light colors on cedar products!
- Even when tannic acid blockers are used, they are not 100% effective!
- Smooth products will require a field applied finish coat!
- Materials must be kept dry at all times prior to installation, use a tarp or place materials in garage.
- Installation of materials denotes acceptance.
- We are not responsible for the occurrence of efflorescence or tannic acid bleeding.
